

SOLUTION BRIEF

Modernize Operations with Workflow Automation

AllRize: The Complete AI-Powered Law Practice Management Platform With Everything in One Place.

PROBLEM

Many lawyers only spend a fraction of their time on actual legal work. Industry research has revealed that attorneys and staff spend far too much time on administrative, repetitive, and non-billable work—time that could be better spent serving clients. Administrative tasks can quickly pile up, creating a never-ending to-do list that ultimately impacts law firm productivity and revenue growth. This manual process can be difficult to track and makes it more likely that details fall through the cracks.

SOLUTION

Using the Matter Management module within the AI-powered AllRize Law Practice Management platform, law firms can streamline manual processes by implementing workflow automation. Repetitive, time-consuming tasks like routine client emails, document generation, and billing can be executed automatically or routed to the appropriate staff member for review. By automating these routine processes, firms reduce the risk of human error, speed up turnaround times, and free up attorneys and staff to focus on higher-value legal work.

Process before AllRize

- Manual administrative process and tasks
- Hours spent on repetitive tasks instead of supporting clients
- Never-ending to-do list
- Details fall through the cracks

Process after AllRize

- Optimized workflow for attorneys and staff
- Repetitive tasks are executed automatically
- Minimized confusion about required tasks
- Free up time to focus on high-value work
