SOLUTION BRIEF

How AllRize Makes Timekeeping Easier, Faster, and More Accurate

AllRize: The Complete AI-Powered Law Practice Management Platform With Everything in One Place.

PROBLEM

For most law firms, timekeeping is one of the most persistent and costly operational challenges. Even highly organized attorneys struggle to capture every billable minute in a day filled with constant interruptions, multitasking, and administrative tasks. The result? Thousands of dollars in lost revenue each month, often without the firm realizing where or why it's happening.

SOLUTION

AllRize eliminates the guesswork, stress, and revenue loss associated with traditional timekeeping by embedding AI-powered, real-time time capture directly into the firm's daily workflow.

Instead of relying on memory or manual effort, AllRize automatically tracks work activity across the tools attorneys use every day including emails, drafting, research, calls, meetings, and document edits, and automatically identifies billable actions.

Attorneys receive pre-drafted time entries based on actual activity. Over time, the system learns how the firm works and provides insights into unbilled work, trends in lost hours, and comparisons against historical baselines.

All of this information translates to cleaner, more transparent invoices that are less likely to be disputed.

Timekeeping before AllRize

- Relying on memory for billing
- Manually tracking hours
- Quick emails, calls, and research sessions go unrecorded
- Time entries are vague, inconsistent, or incomplete
- Attorneys scramble to catch up on missing time
- Billing disputes arise due to unclear or fragmented entries

Timekeeping after AllRize

- All work activity is automatically captured in real time
- Attorneys simply review and approve entries, no heavy lifting
- Entries are accurate, detailed, and client-friendly
- Partners gain insights into billable trends and lost revenue
- Attorneys regain hours for real legal work
