

SOLUTION BRIEF

Close Gaps in Client Communication with AllRize

AllRize: The Complete Al-Powered Law Practice Management Platform With Everything in One Place.

PROBLEM

One common challenge law firms face is maintaining consistent and timely communication with clients. With busy caseloads, shifting priorities, and multiple team members handling different aspects of a matter, it's easy for updates to fall through the cracks. This can lead to clients feeling out of the loop or uncertain about the status of their case, which can impact trust, satisfaction, and even your brand reputation.

SOLUTION

Utilizing the AllRize CRM Module powered by Microsoft's Copilot Al technology, the process of communicating with clients becomes more streamlined, accurate, and predictable. With AllRize, a variety of email and SMS communications can be automated, including deadline reminders, appointment reminders, court date notifications, and more. For personalized emails, the AllRize CRM makes it easy to organize and view communications in one place, minimizing manual tracking and duplicative communications. The CRM Module minimizes administrative tasks for attorneys and ensures clients have the latest information about their case.

Process before AllRize

- Manual client communication process
- Duplicative emails
- Client updates fall through the cracks

Process after AllRize

- Automated client communication process
- Organized and trackable client communications
- Clients receive consistent and timely updates
