

SOLUTION BRIEF

How AllRize Streamlines Staff Collaboration

AllRize: The Complete AI-Powered Law Practice Management Platform With Everything in One Place.

PROBLEM

Legal teams rely on constant collaboration between attorneys, paralegals, assistants, and operations staff, yet that collaboration is often fragmented across emails, spreadsheets, shared drives, and disconnected systems. Critical information lives in too many places, making it difficult for staff to know the status of matters, who owns the next step, or whether deadlines are at risk.

SOLUTION

AllRize's matter management module transforms staff collaboration by bringing people, tasks, and intelligence into a single, shared system of record. Powered by AI, the module actively helps teams coordinate work, surface priorities, and anticipate what needs to happen next. Everyone on the team sees the same real-time picture, reducing friction and enabling smoother handoffs across roles.

Staff Collaboration Before AllRize

- Communication spread across email, chat, spreadsheets, and shared drives
- Limited visibility into matter status and task ownership
- Manual follow-ups to confirm progress or identify blockers
- Duplicated work due to inconsistent or outdated information
- Reactive deadline management and last-minute escalations

Staff Collaboration After AllRize

- Centralized collaboration within a single AI-powered platform
- Real-time visibility into tasks, ownership, and matter progress
- Intelligent task prioritization and proactive alerts
- Clear handoffs between attorneys, paralegals, and support staff
- Fewer manual check-ins and reduced operational friction
